

## Lorenzo Tessari et Attilio Cavezzi nommés Membres d'honneur 2013 de la SFP.

### *Lorenzo Tessari and Attilio Cavezzi named honorary Members 2013 of the SFP.*

Gillet J.L.

Président de la Société Française de Phlébologie

Le 13 décembre 2013, **Lorenzo Tessari** et **Attilio Cavezzi** ont été nommés **Membres d'honneur de la Société Française de Phlébologie**. Tous les deux sont des experts internationaux reconnus par tous pour leurs travaux portant notamment sur la sclérothérapie à la mousse, travaux qu'ils ont régulièrement partagés avec leurs collègues français lors des séances de la SFP et par des publications dans la revue **Phlébologie Annales Vasculaires**.

Nombreux sont ceux parmi nous qui se souviennent de la vidéo mémorable de la première présentation mondiale par **Lorenzo Tessari**, lors d'une séance de la **SFP**, de la fabrication de la mousse avec le robinet à trois voies qui allait devenir la « **méthode Tessari** ». **Attilio Cavezzi** est vice-président de l'**UIP**.

Tous deux continuent inlassablement leurs travaux pour le développement et la diffusion d'une phlébologie moderne de qualité et nous font l'amitié de venir fréquemment à Paris pour des moments de partage avec leurs collègues et amis français de la **SFP**.

Les recevoir comme **Membres d'honneur de notre Société** est une juste reconnaissance de toutes ces années de travail partagé et d'amitié.
