Lorenzo Tessari et Attilio Cavezzi nommés Membres d'honneur 2013 de la SFP.

Lorenzo Tessari and Attilio Cavezzi named honorary Members 2013 of the SFP.

Gillet J.L.

Président de la Société Française de Phlébologie

Le 13 décembre 2013, **Lorenzo Tessari** et **Attilio Cavezzi** ont été nommés ***Membres d'honneur de la* Société Française de Phlébologie**. Tous les deux sont des experts internationaux reconnus par tous pour leurs travaux portant notamment sur la sclérothérapie à la mousse, travaux qu'ils ont régulièrement partagés avec leurs collègues français lors des séances de la SFP et par des publications dans la revue ***Phlébologie Annales Vasculaires***.

Nombreux sont ceux parmi nous qui se souviennent de la vidéo mémorable de la première présentation mondiale par **Lorenzo Tessari**, lors d'une séance de la **SFP**, de la fabrication de la mousse avec le robinet à trois voies qui allait devenir la « **méthode Tessari** ». **Attilio Cavezzi** est vice-président de l'**UIP**.

Tous deux continuent inlassablement leurs travaux pour le développement et la diffusion d'une phlébologie moderne de qualité et nous font l'amitié de venir fréquemment à Paris pour des moments de partage avec leurs collègues et amis français de la **SFP**.

Les recevoir comme ***Membres d'honneur de notre Société*** est une juste reconnaissance de toutes ces années de travail partagé et d'amitié.
