EVF HOW Plus Course
EVF HOW Plus offers new advance courses in venous training.

Future EVF Meeting
Venous Course: Advances in the Management of Chronic Venous Disorders and Venous Guidelines.

EVF was founded in Lyon, France in 2005. The objective is to develop education, scientific knowledge, research and clinical expertise of the highest quality and establish standards in the field of venous disease. The EVF is under the auspices of the Union Internationale de Phlebologie and the International Union of Angiology. Membership is wide and open to anyone who has an interest in the field irrespective of medicine disciplines.

What is evf HOW Plus?

During EVF HOW workshop, learners frequently ask for the possibility to receive more in-depth instructions about the details of various procedures in clinical practice. To continue the goal to provide education in venous disease the EVF HOW Plus courses are created to offer an opportunity to improve various skill sets for venous therapists. [Click here for further general information.](#)

Main Objective

To ensure sufficient skills by providing detailed knowledge, simulator training and precepting in a clinical setting to initiate the use of a procedure.

Pre-requisites for learners to attend evf HOW Plus:

The learner should have:

- preferably attended the EVF Hands-on Workshop;
- proven basic endovascular skills such as experience of DUS-guided access, placing of sheaths, handling guide wires and catheters, intra-interventional use of DUS etc. before training in percutaneous procedures;
- proven experience as surgeon or explanation of arteries and veins before training in open venous procedures.

If you want to be on our e-mail list and be told when new courses are available, please contact: Camille.Bard

How is evf HOW Plus courses structured?

Duration: Short duration (2-5 days).
Number of learners: Depending on type of course, min 4 - max 30
Type of instruction: To provide in-depth education in venous disease may vary dependent on type of course:

- Presentations or lectures should be few and avoided, if possible;
- Discussions on defined didactic case reports should replace presentations. The clinical cases should be selected with the aim to support the objectives of the course, and to introduce the local clinical cases to be treated;
- Simulator training, if available;
- Precepting in the OR, endovascular suite or office environment. Learners will follow the instructors during the interventions or investigations of real time patients. Learners will be given the opportunity to assist during open or percutaneous interventions, discuss tips and tricks, and observe procedural technical details;
- Post-intervention discussion on accuracy of preoperative diagnosis, correctness of the indication to intervene and choice of procedure. Post-operative care and need and type follow-up will be discussed;
- Additional material including videos will be available on this website, evf VOT, which will make it possible for the learner to return to the discussed cases and demonstrated interventions to enhance their education in venous disease.

Note! The learner will be given a certificate of attendance of the course, which in no way attests or certifies any competence to perform the procedure.

Type of procedure courses of evf HOW Plus to be planned:

- Duplex Ultrasound Investigation
- Research/Non-invasive Investigations
- Superficial and Non-superficial Vein Treatment
